

AFI Sentry Series Motor and Control Kit

Complete system for a turnkey automated solution.
Truth manual (crank) operator not included.

TRUTH SENTRY SERIES MOTOR

The Sentry Series system is a retrofit solution for manually controlled (hand crank) Truth operators. System runs on standard line voltage.

- For Truth window or skylight operators (replaces crank handle)
- Kit includes motor, controls and cover (sold separately)

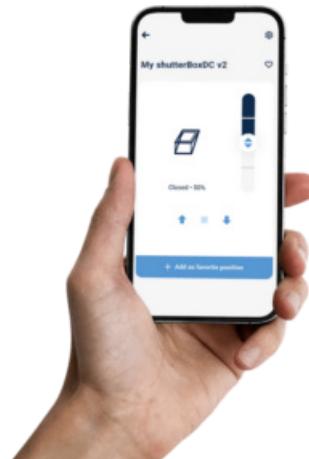

For Wood, PVC or Metal Sashes

- Casement windows meeting AAMA-101 hardware load specs
- Awning windows with loose rivet type hinge and Truth operator
- For skylights weighing up to 80 lbs (WLS is load rated at 40 lbs)

AFI CONTROLS

Kit includes fully programmable control system, with use with included Decora switch, App control or optional remote control.

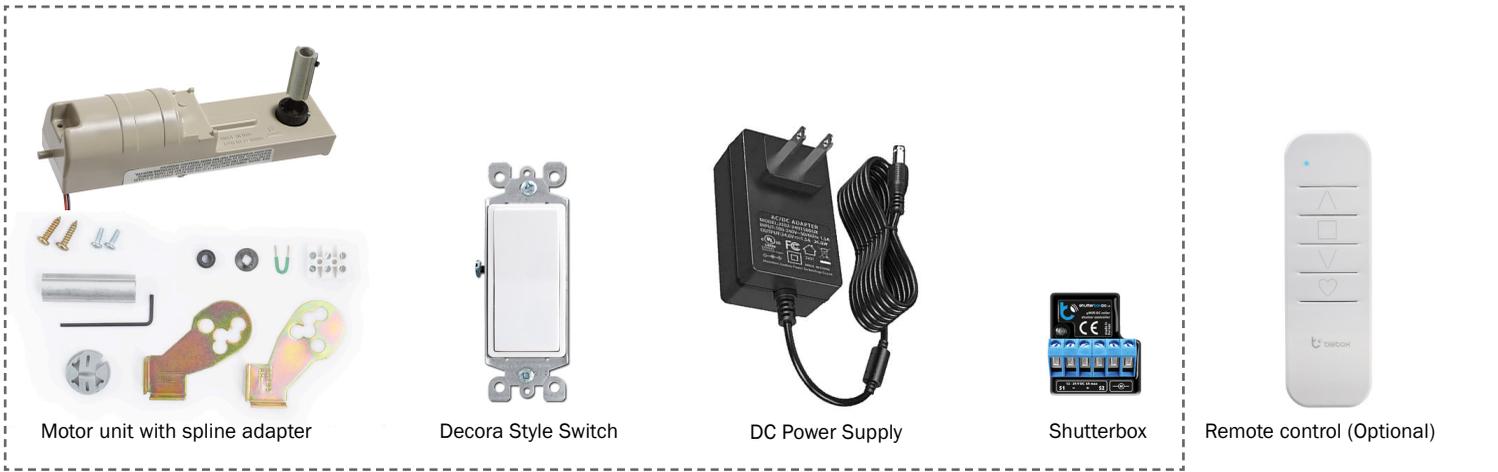

- Optional remote control can operate any number of motors
- Can connect to home automation systems and security systems
- ETL/CE rated
- Operates on 120VAC (120V/24VDC integrated transformer)

Motor is controlled via app

Optional Remote Control
